

SOUTHEASTERN CONSTRUCTION

**QUALITY AND SERVICE ARE OUR STRENGTHS
YOUR SUCCESS IS OUR ULTIMATE GOAL**

ABOUT US

Founded in 1972, Southeastern Construction is a structural steel fabricator offering a diverse line of structural steel fabrications. By continually implementing the latest technology and techniques, we strive to provide high-quality, competitively priced fabrications that exceed our clients' expectations.

Southeastern provides competitively priced steel products to a range of industrial markets:

- Power Generation
- Waste to Energy
- Mining
- Oil, Gas, and Chemical
- Agriculture
- Pulp and Paper

Certifications and Accreditations

- AISC Certified – Standard for Steel Building Structures with the Sophisticated Paint Endorsement P2
- AWS Certified Welding Fabricator

STRUCTURAL STEEL FABRICATION

Southeastern has decades of experience in fabricating structural steel products for the industrial markets. We have separate shops dedicated to structural steel, access steel, heavy structural weldments, and miscellaneous steel. By offering a diverse line of structural steel fabrications, our clients can fill their structural fabrication needs through a single source.

AISC Structural Steel

- Process Buildings
- Pipe Racks
- Equipment Supports

Access Steel

- Stair Towers
- Assembled Stairs
- Platforms
- Handrails
- Ladders
- Bar Grating

Heavy Structural Weldments

- Box Trusses
- Deck Frames
- Pump/Motor Bases
- Plate Girders

Miscellaneous Steel

- Pipe Supports
- Embeds

FACILITIES & EQUIPMENT

Southeastern has six AISC Certified Facilities, with approximately 82,000 SF under roof on a single property. We employ the latest software and fabrication technologies to ensure low-cost, high-quality products.

Facilities

- Structural Beamline
- Access Steel/Miscellaneous
- Heavy Structural Frame
- Light Structural Frame
- Handrail and Ladder
- Blast & Paint Facility (AISC Sophisticated Paint Endorsement – Covered)

Software

- Tekla Structures
- FabSuite
- STS

Equipment Listing

- Controlled Automation 155T Five-Punch Beamline
- Controlled Automation 90T Five-Punch Beamline
- Controlled Automation ABL-100 Angle Line
- Controlled Automation ABL-86 Angle Line
- Controlled Automation GPF Plate Fabricator
- Controlled Automation Multimax Shape Cutting Machine
- Peddinghaus FPDB Heavy Plate Processing Machine
