
SOUTHEASTERN CONSTRUCTION ATTENDS 37TH ANNUAL PORT OF TAMPA PROPELLOR CLUB GOLF TOURNAMENT

Tampa, Florida—November 2, 2021—Southeastern Construction, a leading structural steel fabricator and industrial site/theme park construction company, placed 3rd in the 37th Annual Port of Tampa Propeller Club Golf Tournament Wednesday, October 21.

Steve Miller, Area Manager; Chris Cwiklinski, Business Development Manager; and Barry Irrgang, Insulation Division Manager at Brand Energy Solutions, accepted their trophy from Chris A. Chambers, President of the Port of Tampa Propeller Club.

The Port of Tampa Propeller Club is the largest in the United States with more than 500 members. It supports the maritime industry by promoting education, encouraging the spirit of friendship and common purpose, plus giving back to the community through initiatives and events.

Philanthropic fund-raising events such as Golf Outings, “Shrimperoo”, Stone Crab Festival, and the Port Tampa Bay Anchor Ball are just a few that support the Tampa Port Ministries and the Tampa Bay Maritime Scholarship Foundation.

“Southeastern Construction is honored to support the Port of Tampa Propeller Club,” said Chris Cwiklinski, the Business Development Manager at Southeastern Construction. “It’s fantastic to see everyone come together to promote the maritime communities while fostering meaningful relationships with the club members.”

The Port of Tampa Propeller Club members come from a variety of industries, including shipyards, trucking companies, steamship agencies, legal firms, banks, and many others. Southeastern Construction is grateful to be a member of this organization.

Southeastern Construction provides high quality fabricated structural steel products and industrial site construction services to a vast array of customers, including those in the power generation, waste to energy, mining, oil, gas, chemical, agriculture, and pulp/paper industries. They fabricate process buildings, pipe racks, access steel, equipment supports, and miscellaneous steel.

The steel fabrication facility utilizes the latest BIM, CNC fabrication, and project management technologies, assuring their clients high quality, competitively priced structural steel fabrications. Southeastern’s Field Operations group offers highly skilled, safety conscious, experienced craftsmen who provide on-site construction needs while keeping projects on schedule and within budget.
