ABOUT US

Founded in 1976, Dixie Southern has earned an outstanding reputation in the industrial markets for high-quality, competitively priced steel plate fabrication. Dixie Southern is dedicated to exceeding the expectations of our customers by providing a diverse line of heavy steel plate fabricated products with a focus on support and partnership.

We have an established relationship with the Port of Manatee, Port Redwing, and Port of Tampa Bay only 30 miles from the facility. This allows for efficient shipment by barge. We're confident that our capabilities, extensive experience, and broad competitive price range will prove Dixie Southern a valuable member of your project team.
